EXPERIENCE

Senior Full-Stack Web Developer

Rock Content

03/2016 - Belo Horizonte

Rock Content is the leading content marketing startup in Latin America. I'm working as Full Stack Developer using many different technologies.

- Designed the architecture of a content creation workflow platform, with that customers can dynamically configure their content marketing production process
- Worked with many third party service providers and application integrations to meet the requirements of language tools like internationalization (i18n), plagiarism report tools and others
- Maintain and create features for the Content Marketing Platforms produced by Rock Content
- AWS and Heroku Infrastructure application management
- Linux servers and AWS services administration of EC2, Elastic Beanstalk and others
- Firebase data and users administration
- Event based services integrations to provide data analysis
- Designed custom company reports to automate reports for finance, sales, customer success and other teams

Senior Systems Engineer

Infosys

08/2014 - 02/2016 - Belo Horizonte

Infosys, a global leader in technology services & consulting, helps clients in more than 50 countries to create & execute digital transformation strategies.

- Worked with teams from 3 countries (Brazil, Canada and India) supporting NetIQ Identity Manager (IDM) suite
- Created apps that saved at least 50% of the time spent identifying and fixing data synchronization issues
- Support the IDM third party integrations with other system like SAP, PeopleSoft and others
- Automation of IDM role request and usage history reports using Oracle SQL
- Maintained linux servers using on distributed applications

EXPERIENCE

Systems Analyst

Task (www.task.com.br)

📅 03/2013 - 07/2013 📍 Belo Horizonte

A successful Web hosting company from Belo Horizonte.

- Worked as full stack developer using Ruby and Rails and MySQL
- Acted as main developer on a team of 3 designing the architecture and updating their e-commerce solution
- Created a website hosting and e-mail configuration platform to automatize changes on customers plans
- Created an application to help domains and static pages to easily implement a "contact us" page and manage the contacts and tickets
- Experience supporting and creating new features consuming the EPP protocol to register and renew domains on NIC.br registrar.

Systems Analyst

Sua Conta

📅 03/2011 - 02/2013 📍 Belo Horizonte

Sua conta is a phone bill auditing company.

- Worked with a team of 10 developers creating a phone bill management and audit platform using Ruby on Rails
- Implemented many different auditing rules to validate the commercial scenario of Brazilian phone companies
- Did incredible performance improvements on jobs that previously took almost an entire day to a couple of minutes of execution
- Created different kinds of reports using JasperReports and other tools
